

Fusion in Europe is the official newsletter of EUROfusion, the European consortium for the realisation of fusion energy. Every issue, we will bring you the latest news and views on the progress of fusion research in Europe.

Dear *|IF:FNAME|* *|FNAME|*, *|ELSE:|*reader,*|END:IF|*

Welcome to issue four of our *Fusion in Europe* newsletter! In this edition we take you to Marseille in France for the premiere of our exciting new traveling science exhibition *Fusion, Power to the People*. Of course we also bring you the latest news from our members and our partners, as well as opportunities for students and researchers.

Like what we're writing? Then you'll love our next edition, with a look at the inspiring **outreach activities organised at COP26** by ITER and our UK EUROfusion Member UKAEA.

Don't forget to shoot us a message at news@euro-fusion.org if you want to comment, suggest news or send in a question!

With best regards on behalf of the EUROfusion Communication team,
Gieljan de Vries

This issue of Fusion in Europe:

Traveling fusion exhibition premieres in Marseille

Our exciting new exhibition *Fusion, Power to the People* opened to the public on 8 October at Les Docks Village in Marseille, France! This innovative exhibition uses a combination of art, science, gaming and augmented reality to invite visitors to build up their own understanding of fusion energy and what it can mean for our energy future. #fusionexpo premieres in Marseille from 8 October - 18 December and will then go on to travel all across Europe.

- Inauguration event: EUROfusion's new traveling exhibition opens in Marseille
- Press release: exhibition brings fusion power to the people of Marseille
- About *Fusion, Power to the People*
- Online brochure

SOFT Innovation Prize

The European Commission's SOFT Innovation Prize rewards outstanding researchers or industries who try to find new solutions, possibly with wider applications, to the challenges of realising fusion energy. Submissions are welcome until January 18th, 2022!

FuseNet 8-bit PhD event

The eighth edition of FuseNet's annual PhD Event includes high-profile keynote speakers, a top-notch scientific programme, the much valued PeckaKucha contest, a poster market and the brand-new SpeePhDating initiative.
